

Waste Management Security Services

Protecting Your Assets Like We Protect Our Own

Do you have a residential alarm service monitoring your industrial or commercial site? Wouldn't you rather work with a safety and security partner who owns commercial operations and understands how to protect them?

WM Security Services is part of Waste Management, North America's largest environmental services organization. With more than 2,200 company-owned commercial and industrial sites to monitor nationwide, WM Security Services knows your needs first-hand. We can work with your operations team to design a customized program for a single location, or hundreds of facilities throughout the United States and Canada.

Primary program services generally include the following:

- Fire/intruder monitoring
- Closed-circuit TV monitoring
- Remote entry and exit via security gates
- Secure employee I.D. check-in and check-out systems
- Hardware configuration, testing and confirmation
- False Alarm Root-Cause Analysis and elimination
- Full dispatch of local emergency responders
- One invoice for all locations

Your safety and security system is monitored and controlled from the **Waste Management Security Operations Center (SOC)** in Houston, Texas. The state-of-the-art command center is staffed 24 hours a day, seven days a week, 365 days a year with completely redundant backup systems and an alternate control center in Austin, Texas.

In addition to primary services, **WM Security Services** can provide the following value-added business services to further protect your people and your operations:

- CCTV monitoring and malfunction alarm on key business processes
- Cash drawer monitoring via CCTV with the ability to match transaction data to each transaction right on the screen
- Safety monitoring of employees working alone or in hazardous locations
- Digital Video Recorders on-site with full search and replay function
- Remote access to all cameras via a secure, web-based interface to provide views of your site anytime, from any Internet connection
- Local crime statistic reporting by location address
- Computerized monitoring activity reporting and email delivery

*From everyday collection to environmental protection,
Think Green.® Think Waste Management.*

Waste Management Security Services

Protecting Your Assets Like We Protect Our Own

Commercial and industrial facilities of all types and sizes can benefit from working with **WM Security Services**. The facilities below that store large inventories of valuable goods, host hundreds of visitors each day, or perform multiple cash transactions realize added value from a customized safety and security program:

- Homeland Security designated facilities
- Warehouses
- Port docks
- Truck terminals and cross docks
- Air terminals
- Retail stores
- Vehicle dealerships
- Large construction sites
- Scrap yards
- Storage facilities
- Manufacturing facilities
- Power plants and transmission stations
- Pipelines
- Water and sewage plants
- Chemical plants

The WM Security Operations Center welcomes tour requests. Located in a private, secure hangar at George H.W. Bush (Intercontinental) Airport in Houston, flights are in and out within 90 minutes from touchdown to takeoff.
